SUMMARY

Highly motivated AI & ML B. Tech student with a strong foundation in data structures, algorithms, and machine learning, seeking to apply analytical and programming skills to solve complex data challenges. Proven ability in developing ML models, data analysis, and software engineering principles.

EXPERIENCE

Software Engineering Virtual Experience Program

Goldman Sachs

📅 December 2023

- Completed a job simulation as a Goldman Sachs governance analyst, focusing on IT security assessment and improvement.
- Analyzed and identified vulnerabilities in the company's password hashing algorithm by cracking passwords using Hashcat, demonstrating strong analytical and problem-solving skills.
- Developed and proposed a comprehensive memo outlining security uplifts, including extending minimum password length and implementing dedicated hashing algorithms, showcasing attention to detail and strategic thinking.
- Gained practical experience in cryptography and hashing algorithms, relevant to data security and integrity.

PROJECTS

Cotton Plant Disease Detection and Classification using Transfer Learning

📅 April 2024

📍 Python, TensorFlow

- Utilized pre-existing CNN models and implemented them into a custom model using Transfer Learning for enhanced performance.
- Built a Machine Learning model to predict various types of diseases on a cotton leaf based on image processing, achieving high classification accuracy.

Hackathon on Mechatronics

📅 July 2023

📍 Arduino Programming, Python, Raspberry Pi

- Explored and developed multiple Arduino-based projects for various use cases, including house security systems and obstacle avoidance, demonstrating practical application of hardware-software integration.

Game Development

📅 October 2023

📍 C#, Unity Engine

- Utilized the Unity Engine to develop a solar system model for educational purposes, promoting gamified learning.
- Built a game similar to Flappy Bird with 3D renderings in a first-person point of view, showcasing 3D development and programming skills.

Personal Portfolio

Website

📍 Html, CSS

- Designed, developed, and hosted a personal website to showcase projects, skills, and professional experience.

POSITIONS OF RESPONSIBILITY

EDUCATION

B. Tech in AI & ML

NNRESGI

📅 – 2025

📍 Hyderabad

- GPA: 7.20

Class XII

Nano Junior College

📅 – 2021

- Percentage: 90.0%

Class X (ICSE)

Sri Sai Public School

📅 – 2019

- Percentage: 87%

SKILLS

Programming & Data

Python C/C# Java SQL
Node R TensorFlow Excel
Hashcat Html CSS Tools &

Platforms

Linux Unity Engine
Arduino Programming Raspberry

Other

Trading on crypto markets

-RELEVANTCOURSEWORK

- Game Development
- Algorithms
- Compiler Design
- Operating Systems
- Data Structures
- Machine Learning
- Data Science
- Database Management

EXTRACURRICULAR ACTIVITIES

- Selected for the college football team and led the team as Captain for a year, demonstrating leadership and teamwork.

HOBBIES

- Poetry
